Nobilé®
Glass & Giftware

Simon Grigg founded the company in 1994 following many years of travelling the world and establishing friends and contacts within the commercial and hand made glass industries. After a period of working with the owner of the renowned Venetian Glassworks "Venini", the idea was born to collaborate with an inspiring and newly established hand made glassworks in the Eastern Bloc.

The subsequent years have been a journey of ideas and concepts producing truly innovative hand made glass items throughout the globe. There are a number of key principles behind each project: foremost uncompromising quality, affordability and a uniqueness that stands out from the crowd. This has always been fundamental to each creation.

With a passionate and creative team that has a can-do attitude, Nobile Glassware® has become a leading supplier of hand made glass and giftware to the retail industry. Our focus will be to continue and deveop on-trend themes that have a sparkle of difference!

We welcome bespoke work - please do not hesitate to contact one of our friendly team should you require any further assistance.

HAND DECORATED WITH REAL SILVER&GOLD AND MIX OF ORGANIC COLOURS

MOSAIC - HARMONY COLLECTION

HAND WASH ONLY

NEW 2022

Each "Mosaic" item is individually mouth blown from molten glass that is kiln gathered at approximately 1450°C. After annealing (cooling), the black glass string is applied by free-hand spinning to the outer surface, creating the bespoke pattern ready for it's onward decorating. Real liquid Gold or Silver is then brushed to the desired areas and subsequently fired at 540°C. The item is then decorated with chosen organic colours, a second firing at 180° will take place, thus creating a unique curing, vibrant and lustrous finish that so much appeals. It's a testament to the blower's and decorator's working harmony and expert hand-skills that each final creation has only slight differences to the naked eye, yet every piece maintaining it's individual and unique characteristics in design.

Ideal gifts for the Occasions, Anniversaries & Home Décor market

Birth Gem® Hearts

"Birth Gem® Hearts" are a romantic tradition that has endured the test of time, since before the medieval era.
The Nobilé collection of "Birth Gem® Hearts" have been designed to reflect the colour for each "Birth Gem® Heart" calendar month, according to the modern day translation and using the closest natural glass colours available.

Every glass "Birth Gem® Heart" has been carefully handmade using traditional Old World Glass making techniques, giving each item a unique appearance, whilst continuing to represent a beautifully genuine colour.

Inspired by
Graziella Cavalli

Display Stand Dimensions
Width 51cm x Depth 44cm x Height 82cm

Stand Offer
Stand is supplied free of charge on loan basis with a stock purchase of 96 Birth Gem Hearts (inclusive of hanging display items).

Please contact head office or your area sales representative for further details
Individual heart stand shown are available to purchase

A BRIEF INSIGHT INTO THE MAGICAL ART OF HAND MADE GLASS PRODUCTION

Each piece is Individually Handmade using the Traditional Art of Fusing Glass, in some of our larger items there can be over twenty hand cut elements of glass that are then carefully placed together along with coloured glass pigments and granules that will lead to its final design. This complex method of layering and combining glass followed by Kiln Fusing at up to 816°C (1501°F) creates a distinctive and original style with each piece being unique.

Free & Mould Blown - Hand Decorated Glass Vases and Gift pieces

Inspired by our Italian Polish designer Graziella Cavalli and created by our Master Glass Blowing Craftsman exclusively for Nobile Glassware.

The intricate process of creating these individual and unique pieces starts by selecting the finest components and materials that are carefully blended and heated to 2400°F (~1315°C) at which point the transformation into glass takes place.
The temperature is then reduced in the furnace so as to be workable for the craftsman to then skillfully Gather, Blow and Work the glass using Techniques and Tools that are Centuries Old.

Glassblowing involves three furnaces - the "Crucible" which contains the molten glass, the "Glory Hole" which is used to reheat a piece between steps and the "Lehr" or "Annealer" used for cooling the glass over a period of a few hours or days depending on the size of the item. Some small bubbles or cords and variations in design or size can occur during these complex processes. These should not be considered as faults; rather it's a source of pride and a testament to the skill and eye of the craftsman that these are only slight.

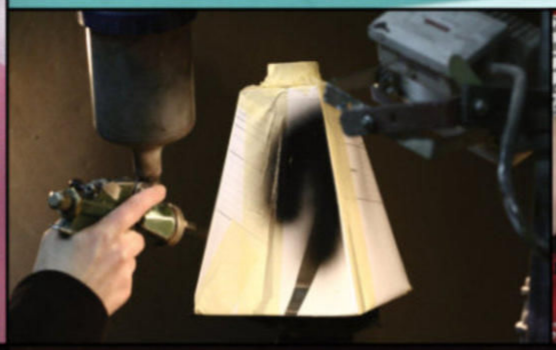

Our final item shapes on show are particularly difficult to create, of which only Master Craftsmen can produce. Each of these piece's then goes on to be hand-decorated using various methods such as cutting, sandblasting, polishing and painting, to name a few. With a passionate and innovative design team our Unique and original decorations have taken many years to create and perfect and have gained great admiration throughout the industry.

Glass making is truly a captivating craft and we do hope you enjoy our pieces as much as we have enjoyed creating them.

Yours Magically
From all at Nobile Glassware®
